

# the future

## of Higher Education in a Changing World

Implications for Teaching, Learning,  
Assessment and Student Engagement

- A Masterclass series and professional development programme for senior leaders at CIT/IT Tralee, facilitated by Advance HE and Kaleidoscope Coaching, in collaboration with the Teaching and Learning Unit.
- The programme has been developed with direction from a joint CIT/IT Tralee Steering Group to meet the needs of senior leaders in Learning and Teaching.
- Participants will be drawn from senior leaders and managers including Heads of Department, School, Function and Faculty.

## ● Aims

- Discuss important HE leadership topics including Future of Work and Generation Z, and explore their impact on our curriculum and learner experiences
- Develop an understanding of the purpose and principles of a curriculum framework
- Provide a space to evaluate and reflect on the future development of HE at CIT and IT Tralee and consider how changes worth making can be initiated and sustained
- Enable those leading learning and teaching at CIT/IT Tralee to embed proposed changes within their departments and functions

## ● How?

- Primarily delivered online through synchronous and asynchronous activity in three modules
  1. Current and Emerging HE Landscape
  2. Leading Change in your Department/Function
  3. Embedding and Sustaining Activity
- Bespoke content from leading external national and international speakers, and Advance HE's highly regarded 'Leading Transformation in Learning and Teaching' development programme
- Individual coaching sessions to initiate participant's own action plan

## ● Participant Benefits

- Opportunity to review, align and plan the Teaching, Learning, Assessment, and Student Engagement priorities of your Department in the context of a changing HE landscape
- Consider ways to further enhance intra and inter departmental collaboration
- Develop case studies to support possible application for your application for Fellowship of Advance HE

## ● When?

- Modules will run during the 2020-21 academic year in three 'sprints'  
**MODULE 1:** November/December **MODULE 2:** February/March **MODULE 3:** April/May
- For each module, participants will be expected to attend 6 hours of whole-group synchronous activity and undertake 4-6 hours of individual/small group activity
- Full schedule of session times available on registration web page

## registering interest

For further information and to register your interest visit:
